

# WIRELESS WIND SPEED SENSOR SYSTEM

HIGHLY ACCURATE, EASY TO USE OUT-OF-THE-BOX  
MEASUREMENT SOLUTION IDEAL FOR THE LIFTING  
AND HANDLING INDUSTRY - AVAILABLE NOW!

RADIO  
EQUIPMENT  
DIRECTIVE (RED)  
APPROVED

The system includes an externally powered in-cab display and a low power consumption wind speed sensor providing exceptional battery life in excess of 12 months. The wind speed sensor incorporates a pivot

design to facilitate mounting to moving booms and ensures a constant upright position.

## IN-CAB DISPLAY

- Shows a rolling average wind speed
- Easily configurable relay and buzzer
- Backlit display for low light conditions
- Supplied on a ball jointed cab mount or wall mount for convenience
- Externally powered (8 - 36 Vdc)
- Supplied pre-calibrated and paired to wind speed sensor

## WIND SPEED SENSOR

- Range of measurement: 5 - 125 mph
- Units: m/s and mph
- Constantly monitors average wind speed
- Low power mode providing long battery life in excess of 12 months using standard D Cell batteries
- Class leading wireless range of up to 800 m (2,600 ft)
- Radio Equipment Directive (RED) approval
- Pivot design for mounting to moving booms
